Meetings Industry Benchmarking on TourMIS

Dr. Jason Stienmetz, TourMIS Workshop

09.09.2021

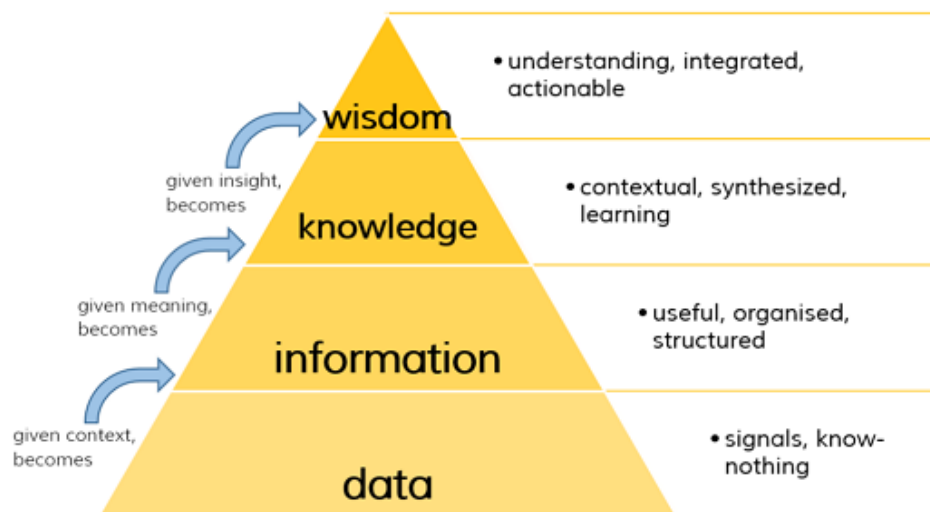

Meetings Statistics on TourMIS

Goals:

- To **monitor and benchmark so as to supply** practical and actionable information
- Data about **the volume and the economic significance of the convention business** to city destinations.

Value:

- Focus on the **association and non-corporate international segment** and **corporate*** and **national*** meetings segments
- **Online database TourMIS** to upload your data, trend, and benchmark with other cities

Increased Importance of MICE Data

- Resilience of Meetings Sector
- MICE contribution to COVID-19 economic recovery
- Future trends and developments in Meetings Activities
- Detailed approaches for different markets (corporate and non-corporate)

Project Details

- Database of more than 500,000 meetings that have taken place over the past 10 years
- Time Series and Benchmark Analysis through TourMIS website
- Approximately 50 CityDNA member cities participating

Valuable Meeting Industry Insight

- Each meeting record includes the following details:
 - Type of meeting (corporate or non-corporate) - **required**
 - Scope (national or international) - **required**
 - Date (start date and end date) - **required**
 - Number of participants (10-100.000) - **required**
- Additional Data
 - Type of venue (convention centre, hotel, university, or other venue) - **optional**
 - ICCA theme of the meeting - **optional**

Key Definitions and Guidelines (UNWTO)

Corporate meetings: Corporate meetings are business encounters normally held by a private company or group, in which the participants represent that company or group, or are clients of or suppliers to that company or group. These meetings normally have commercial/promotional purposes. The meeting takes place outside the company's or group's office.

Non-corporate meetings: Non-corporate meetings are events without commercial aims. The main goal is exchanging, discussing, or presenting knowledge. Normally, these meetings comprise congresses, conventions, conferences, seminars, and other smaller meetings held by associations, universities and scientific communities, political bodies, NGOs, etc. These meetings take place outside the organizer's own facilities. We have excluded trade-fairs and other exhibitions.

Venue: To be counted, the meeting must take place in a venue specifically contracted for the purpose. Meetings held in the headquarters or other offices belonging to the meeting organizers are not included.

Duration: The meetings must last at least half a day. The dates for the meeting should not include meeting room blocks before and after the meeting.

Attendance: The meetings must have at least ten participants.

Scope: To be counted as international, at least 20% of meeting participants must not be resident in the country where the meeting takes place. If this proportion is not reached the meeting is counted as national.

Theme of meeting: We ask cities to provide us with information about the theme of non-corporate meetings. We used the same categories as ICCA to define the theme of the meeting:

Agriculture	Culture & Ideas	Geography	Linguistics	Multimedia	Transport &
Architecture	Ecology & Environment	Historical Sciences	Literature	Safety & Security	Communication
Arts	Economics	ICT	Management	Science	Other
Chemical Sciences	Education	Industry	Mathematics &	Social Sciences	
Commerce	Finance	Law	Statistics	Sports & Leisure	
Communication	General	Library & Information	Medical Sciences	Technology

Release notes

2021-04-17 An email reminder service was set up for entering the number of visitors to sights.

2021-04-17 An interface for dynamically maintained graphics was created. The gallery of different graphics is to be continuously expanded. The gallery is available on the homepage of www.tourmis.info.

2021-03-09 The formats of MS Excel tables has been improved. All MS Excel Tables generated by TourMIS have xlsx Format.

2021-02-26 TourMIS was moved to a new server, reaction time was significantly improved
Homepage and main menu was revised
Table in 'Cities' for estimating CO2 emissions was revised. It now includes an option for including external market research data to improve the splitting of transportation modes used by tourists arriving at a city.

2019-11-19 New administrator email accounts relatet to TourMIS:
admin@tourmis.info for technical questions
mice@tourmis.info for questions related to the MICE database
webanalytics@tourmis.info for questions related to the Webanalytics database
support@tourmis.info for any other questions

2019-09-28 www.tourmis.info finally moved to SSL; in the future www.tourmis.com will not be supported anymore, please use www.tourmis.info instead.

2019-03-03 Travel distance estimator (table ECT J-16 in Cities) has been revised and extended. We added a function which estimates the transportation mode to the destination and the CO2 emissions generated by following the kg/pkm published by Peeters et al. (2007).

Note:

Data Entry Templates

- Excel File templates are used to assist with proper formatting of data.
- <https://www.tourmis.info/mice/mice1.xls>
- Detailed Manual with step-by-step instructions
- <https://www.tourmis.info/mice/Meetings-Manual.pdf>

- Required for each meeting
 - Meeting name
 - Start Date
 - End Date
 - Type of Meeting (Corporate or Non-Corporate)
 - Number of Participants
 - Scope (National or International)

- Optional
 - Venue Type
 - ICCA Theme

Improving Data Quality

- Providing Complete Data is Challenging
- To improve Data Quality TourMIS can generate reports using a weighting system
- Under-represented meetings categories are given more weight to increase the reliability and validity of comparisons
- Completeness Estimation based on expert judgement of MICE professionals

Completeness of data (best possible estimate)	in %	
Corporate events - national participants	<input type="text"/> %	<input type="button" value="Save all"/>
Corporate events - international participants	<input type="text"/> %	<input type="button" value="Save estimates"/>
Non-corporate events - national participants	<input type="text"/> %	<input type="button" value="Return"/>
Non-corporate events - international participants	<input type="text"/> %	

Note:

Participating in TourMIS MICE is EASY

- Registration is required to access TourMIS (FREE)
- Special data entry privileges can be granted to MICE professionals
- Send an email to MICE@TOURMIS.INFO
