

## How to set up VPN for access to digital resources provided by MU's Library

- Download FortiClient VPN from URL:
  - a. Download for Windows:
    <a href="https://filestore.fortinet.com/forticlient/downloads/FortiClientVPNOnlineInstaller">https://filestore.fortinet.com/forticlient/downloads/FortiClientVPNOnlineInstaller</a>
    6.4.exe
  - b. Download for MacOS:
    <a href="https://filestore.fortinet.com/forticlient/downloads/FortiClientVPNOnlineInstaller-6.4.dmg">https://filestore.fortinet.com/forticlient/downloads/FortiClientVPNOnlineInstaller-6.4.dmg</a>

2. Install FortiClient on your device. Setup and click on *next*.

3. Keep the default installation path and click next.

## 4. Click install.

5. When you start FortiClient VPN, this window appears. You have to activate the checkbox and click on *"I accept"*.

6. After that click on *Configure VPN*.

7. Enter a name of your choice for this VPN connection, i.e. MUV, in the field *Connection Name*. Copy the following URL <a href="https://vpn.modul.ac.at/students">https://vpn.modul.ac.at/students</a> in the *Remote Gateway* field. Please activate the checkbox Customize port and set the port 443. Select *Save Login* in the Authentication section. Enter your student id in the field *User Name* and click on *Save*.
