Before you start entering your figures you need to **check the definitions available in TourMIS **and the methodologies** used for generating your data in your destination!**

A few questions to think about ...

- Hotels or similar vs. collective/paid vs. all forms of accommodation (paid and unpaid/VFR)?
- Bednights or roomnights?
- Does data also include small accommodation units?
- Does capacity data (# of accommodation suppliers, # of bed spaces) cover the same units as the numbers on arrivals and/or bednights?
- **For cities only:** Does your statistics cover the surrounding region or the “city area”?
- See UNWTO & Eurostat definitions and read TourMIS information available on www.tourmis.info
